Item 15. Remarks

The water under this application is for irrigation of 140.0 acres and is to be commingled with water under temporary applications being filed concurrently to change portions of Permits 18703 and 30521 for a total not to exceed 241.99 irrigated acres within the proposed place of use. Desert Pearl Farms is leasing the land within the place of use from the Circle Bar N Ranch for approximately 2 years.

The water under base right Permit 24013 is partially supplemental to water rights under Permit 30521. The supplemental acreage within the existing place of use will be proportionately reduced during the period that the lease is in effect, as shown in sketch on file at the Division of Water Resources under Permit 67046-T.

Use proof of beneficial use maps on file at the Division of Water Resources under Permit 24013 to support the existing place of use and point of diversion, and under Permit 30068 to support the proposed point of diversion, and the attached sketch to support the proposed place of use.
